

# Petition calling for Barangaroo Light Rail

*To the Honourable Speaker and Members of the Legislative Assembly of New South Wales. The petition of the people of NSW brings to the attention of the House:*

Inner Sydney needs a world class integrated mass transit system. The City of Sydney Integrated Transport Strategy report draws on more than 30 previous reports done by NSW Government agencies and recommends a better public transport system, including light rail, as the bus system is overloaded and cannot reliably deal with increasing passenger volumes.

A dedicated light rail network through Inner Sydney would provide a fast, effective solution if developed as part of an integrated transport plan that effectively coordinates bus, train, ferry and light rail systems.

There is a unique opportunity to integrate light rail into the major urban redevelopment project of Barangaroo and The Hungry Mile, with public transport essential for the new commercial and residential development as well as the planned Headland Park.

A new light rail route to Barangaroo would also improve public transport for residents and visitors to The Rocks, Dawes Point and Millers Point.

***The undersigned petitioners therefore request light rail to Barangaroo.***
