

# Petition Calling for the Rejection of an Expanded Marina at Elizabeth Bay

*To the Honourable Speaker and Members of the Legislative Assembly of New South Wales in Parliament assembled. This Petition of the people of New South Wales brings to the attention of the House:*

Elizabeth Bay fronts Beare Park, which is surrounded and used by one of the largest concentrations of residents in the country, who mostly live in apartment buildings with no private open space.

The City of Sydney recently upgraded Beare Park to give public access to the water and tidal beach, recognise Aboriginal and European heritage and reduce stormwater and pollution run-off into the harbour.

A super-marina in Elizabeth Bay could seriously impact on the amenity of Beare Park, degrading views, polluting the sea water and foreshore, and causing traffic and parking congestion in an already constricted area.

Sydney Harbour belongs to the community and needs holistic planning. There should be a moratorium on all new marina developments until a Master Plan is established for the whole harbour including the heritage Elizabeth Bay precinct.

***The undersigned petitioners therefore ask the NSW Government to reject any proposed super-marina for Elizabeth Bay and begin public consultation for a Master Plan for our greatest asset - Sydney Harbour.***
